

Who we are

Junius Solutions is a Sydney based IT Managed Services Provider specialising in proactive solutions, cyber security and business continuity.

We use market leading tools to take a proactive approach to IT support, eliminating problems before they impact your productivity. Our support platform offers integrated monitoring, patch management, endpoint security, email content protection and backup for Microsoft 365 mailbox, Outlook and SharePoint.

As a client satisfaction focused organisation we understand the value of building long-term relationships with our clients.

Our ITILv4 Service Level targets ensure a prompt response to any unexpected issues that might pop up, and all technical staff are Level 2 and above to ensure that they know where to find the solutions you are after.
